Spring Test 2

Questions, Answers and Topic Information

Read the following instructions or press 'play' ▶ and listen to the instructions being read from the CD-ROM.

Listen carefully to the instructions I am going to give you. When I have finished reading them, I will answer any questions. You will not be able to ask any questions once the test has begun.

I am going to ask you 20 questions. On your sheet there is an answer box for each question, where you should write the answer to the question and nothing else. You should work out the answer to each question in your head, but you may jot things down outside the answer box if this helps you. Do not try to write down your working because this will waste time and you may miss the next question. For some of the questions, important information is already written down for you on the answer sheet.

I will read each question twice. Listen carefully both times. You will then have time to work out your answer. If you cannot work out an answer, put a cross in the answer box. If you make a mistake, cross out the wrong answer and write the correct one next to it. There are some easy and some harder questions, so do not be put off if you cannot answer a question.

Now pause, or press 'pause' ❚❚ on your CD player or computer. Ask the children if they have any questions. Once you have answered all the questions, read out the following instructions. Alternatively, play the audio recording from the CD-ROM.
▶ **Now we are ready to start the test.**

		Answer	Topic
	For this group of questions you will have 5 seconds to work out each answer and write it down.		
1	Double three hundred and twenty.	640	MD
2	How many diagonals has a rectangle?	2	PS
3	Find two-thirds of fifteen.	10	F
4	Divide twenty-six point four by ten.	2.64	MD
5	Look at your answer sheet. What does the two mean?	squared	MD
	For this group of questions you will have 10 seconds to work out each answer and write it down.		
6	What is five hundred and seventy metres less than one kilometre?	430 m	M
7	Multiply six by four and then add one hundred and twenty to the result.	144	AS/MD
8	Look at your answer sheet. Draw an arrow to show three point two five on the number line.	2.75 ▼ ⎯⎯⎯ 5.25	Dc
9	Look at your answer sheet. Circle the largest fraction.	$\frac{7}{8}$	F
10	Write three factors of ten.	Any 3 from 1, 10, 2, 5	MD
11	What is another way of saying the time 'five forty'?	20 to 6	M
12	What is the sum of sixty-seven and four hundred and forty-seven?	514	AS
