

Science – Week 6 – Sound

Lesson 1 – How is sound made?

We are going to do some work on sound this week to finish off the topic. Watch this video lesson and fill in the worksheet. There are also some different activities you could do while you watch the video.

Lesson 2 – Good vibrations

Follow the PowerPoint and fill in the mind map and worksheet. For the worksheet explore your local area when you are on a walk or just listen carefully to the sounds you can hear at home. I have also included a game should you wish to play it when you are finished.
