

## The parish community - Lesson 1

This week I want you to learn about our local parish and church. I'm sure many of you know a lot about this already! A parish is a Christian community in a local area. All your families and the school community are part of our parish. You can find a link below to our church. I would like you research the church writing notes as you go along. You can use the questions below as a guide. When you have finished making notes, I would like to create a **fact file** with all this key information. There is a template you can use or you can create your own one.
