OLI: To compare different types of rocks

Sort the pictures of rocks into natural and human made rocks.

Natural Rocks

A large, empty rectangular box with a black border, intended for sorting pictures of natural rocks.

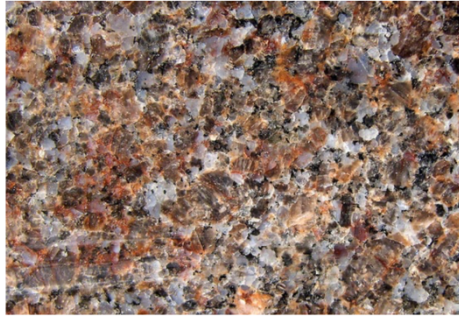

Human-Made Rocks

A large, empty rectangular box with a black border, intended for sorting pictures of human-made rocks.

Brick

Granite

Chalk

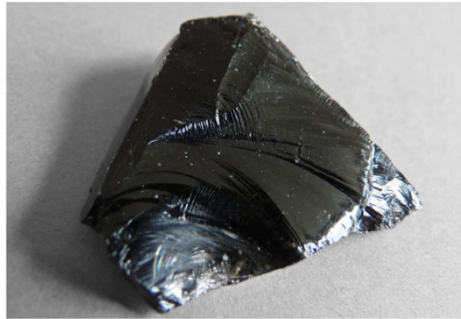

Marble

Concrete

Obsidian

Coade Stone

Sandstone

Quartzite

Basalt

Limestone

Slate

Challenge: Can you separate the rocks into igneous, sedimentary and metamorphic?
Can you explain the uses of each type of rock?

Natural Rocks

Igneous

Sedimentary

Metamorphic

A large, empty rectangular box with a black border, intended for notes on igneous rocks.

A large, empty rectangular box with a black border, intended for notes on sedimentary rocks.

A large, empty rectangular box with a black border, intended for notes on metamorphic rocks.

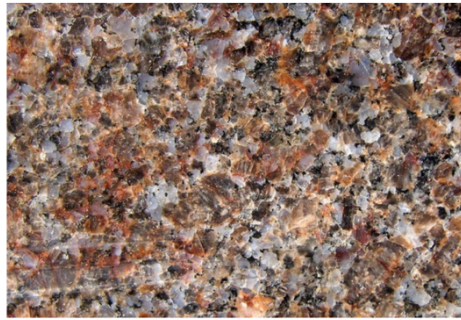

Human-Made Rocks

A large, empty rectangular box with a black border, intended for notes on human-made rocks.
