Spring Test 3

Questions, Answers and Topic Information

Read the following instructions or press 'play' ▶ *and listen to the instructions being read from the CD-ROM.*

Listen carefully to the instructions I am going to give you. When I have finished reading them, I will answer any questions. You will not be able to ask any questions once the test has begun.

I am going to ask you 15 questions. On your sheet there is an answer box for each question, where you should write the answer to the question and nothing else. You should work out the answer to each question in your head, but you may jot things down outside the answer box if this helps you. Do not try to write down your working because this will waste time and you may miss the next question. For some of the questions, important information is already written down for you on the answer sheet.

I will read each question twice. Listen carefully both times. You will then have time to work out your answer. If you cannot work out an answer, put a cross in the answer box. If you make a mistake, cross out the wrong answer and write the correct one next to it. There are some easy and some harder questions, so do not be put off if you cannot answer a question.

Now pause, or press 'pause' ❚❚ *on your CD player or computer. Ask the children if they have any questions. Once you have answered all the questions, read out the following instructions. Alternatively, play the audio recording from the CD-ROM.*

▶ **Now we are ready to start the test.**

		Answer	Topic
For this group of questions you will have 5 seconds to work out each answer and write it down.			
1	Write the number one hundred and sixty-one in digits.	161	NPV
2	Take away eight from forty.	32	AS
3	What is the total of six hundred and twenty-two and fifty?	672	AS
4	How many right angles are needed to make a full turn?	4	PD
5	What is one hundred minus ten?	90	AS
6	Look at your answer sheet. What time is shown on the clock?	20 past 6 or 6:20	M
7	If Jack pays for a five pound book with a ten pound note, how much change will he get?	£5	M
8	Halve thirty-four.	17	F
9	Look at your answer sheet. What number comes next?	400	NPV
10	Look at your answer sheet. Circle the sign that makes the number sentence correct.	<	NPV
For this group of questions you will have 10 seconds to work out each answer and write it down.			
11	Look at your answer sheet. Circle the multiples of ten.	730 and 270	MD
12	Look at your answer sheet. Tick the shape with a curved face.		PS
13	If four people can travel in one car, how many cars are needed for ten people?	3	MD
14	Look at your answer sheet. Write the missing number in the circle.	$1\frac{1}{2}$	F
15	What is one-third of twenty-one?	7	F

Now put down your pen or pencil. The test is finished.

NPV = Number, place value   AS = Addition and subtraction   MD = Multiplication and division   F = Fractions
M = Measurement   PS = Properties of shapes   PD = Position, direction   S = Statistics
