

# Geography

## Rainforest

A vibrant illustration of a rainforest scene. In the foreground, a small stream flows over rocks, surrounded by lush green vegetation and ferns. Several tall, slender palm-like trees with large, fan-shaped fronds stand prominently. The background is filled with dense, layered green foliage and trees, creating a sense of depth and a rich, natural environment. The overall style is colorful and detailed, typical of a children's educational resource.

# Where are the Rainforests?

# Aim

- I can identify areas of the world containing rainforests.
- I can use maps and atlases to locate rainforests.

# Success Criteria

- I can name some countries where rainforests are found.
- I can tell you more about one country where rainforests are found.
- I can use an atlas to find countries of the world where rainforests are found.
- I can label a map to show countries where rainforests are found.

# Types of Forests

Whole Class

There are four main types of forests around the world:

tropical rainforest

# Types of Forests

Which kinds of forest do we find in the UK? Which ones are not found in the UK?

# Types of Forests

Have you heard of rainforests before?

What do you know about them?

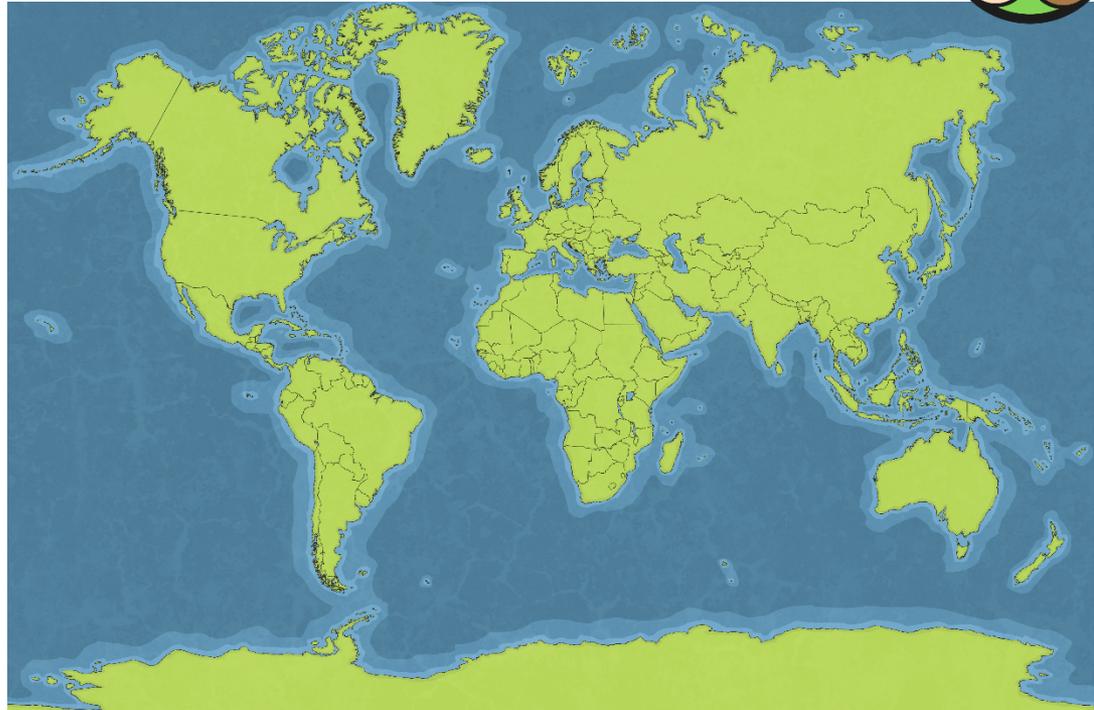

# Where Are Rainforests Found?

Rainforests are found in many countries, such as:
